

## Card Design 5

1. Glue layer 1 into the center of the card base
2. Glue layer 2, then center layer 3 between the top and bottom of layer 2
3. **Create the tag:**
  - a. Peel the backing off layer 4 and apply it to the bag of the tag so that the scalloped edge is peeking out on the right side of the tag
  - b. Glue layers 6 & 7 to the front of layer 5
  - c. Peel the backing off the ribbon and apply it to the tag, just below the hole, wrapping the ends of the ribbon around the back of the tag.
  - d. Glue the bow to the tag, using the provided glue dot
4. Glue the assembled tag to the card front, as shown in the template above
